

Immerse Yourself in Zero Gravity

Shown in inversion therapy position

The Benefits of Zero Gravity

Like the zero gravity astronauts experience in space, the IT-8500 provides a weightless experience to relieve tension, stress and muscle discomfort. With two zero gravity positions the experience promotes overall well-being, reducing your heart rate, lowering blood pressure, soothing stress, and calming both the body and mind for a one of a kind relaxation experience. The steady rhythmic massage soothes fatigued muscles, releases tension and restores a normal, steady heart rate by assisting in the transmission of oxygen-rich blood throughout your entire body.

Your Remote Control for Comfort and Relaxation

1. **TARGETED MASSAGE:** While still in manual "Function" mode, you can begin to target specific areas of the back.
Zone—Select once for a regional massage, and again to pause the rollers in a specific area.
Roller Adjust—Effect micro-movements of the rollers to pinpoint trouble areas.
2. **SEAT SWIVEL:** Press for seat/waist twisting airbag function through 3 different intensities.
3. **HEAT:** Enable lumbar heat, allow a few moments for heat effect to be felt.
4. **ZERO GRAVITY:** Select to achieve weightless-type posture. Press again for a deeper recline, and again to turn off.
5. **FOOT ROLLERS:** Press to turn on foot/sole roller massage. Continue to press button through 3 increasing intensities.
6. **16 PRE-SET PROGRAMS:** Press to cycle through time settings of 45/30/20 or 10 minutes. To end, press on/off button.
Recover—Strenuous and invigorating, full body massage.
Extend—Gentle stretching and pulling loosens stiff muscles and joints, enhances flexibility.
Refresh—Gentle full body massage.
Relax—Soothing moderate massage featuring air pressure massage for the neck and shoulders.
7. **MANUAL ROLLER CONTROLS:** Press Function to select manual massage programming. Continue to press "Function" to rotate through 6 different massage techniques.
8. **MANUAL AIR BAG CONTROLS:**
Air Bags—Select for full airbag massage.
Arms & Shoulders—Select for A/S massage.
Upper Body—Select for upper body massage.
Legs & Feet—Select for foot/sole/calf massage.
Air Intensity—Press to increase/decrease the strength and intensity of air bags.
9. **MUSIC CONTROLS:** Relax to your own music selection using a USB flash drive
10. **RECLINE CONTROLS:** Adjust both the back and leg rest to desirable positions.
11. **SCREEN:** View your massage options on the dynamic guide screen

The IT-8500 is the ultimate in indulgence!

Discover **Zero Gravity** by Infinite Therapeutics

Whole Body Airbag Massage

Head Rest Pillow Airbags

Through gentle swinging motions and pressure points, the airbags inflate and deflate to provide superior comfort and relaxation, relieving tension, neck pain and headaches.

Shoulder Airbags

Airbags below both shoulders offer powerfully refreshing, kneading, rolling and twisting massage motions. Like a professional massage, they provide the highest level of comfort and relaxation to areas with the most tension.

Arm and Wrist Airbags

Airbags along the wrists offer a soothing wave-like motion to promote circulation and refresh your arms.

Lower Waist Airbag

The deep, kneading motion of the 3-layer massage airbags are superior to the motion of human hands to promote circulation, leaving you feeling refreshed and renewed.

Lumbar and Buttock Airbag

The twisting motion of two powerful airbags are like the hands of a talented masseuse, providing you with an invigorating massage that rolls out tension and revives the buttocks and thighs.

Leg Airbag Massage

Each leg of the massage chair features 12 individual airbags that provide a gentle squeezing and kneading massage which reduces tension and stress throughout the muscles. The deep tissue massagers will increase blood circulation to the feet, making you feel healthier and revitalized.

Soul & Foot Massage

Because you normally hold tension, stress and fatigue in your feet, these powerful massagers will revive your entire being. In each foot unit of the massage chair, there are 8 airbags and 3 rolling sole massagers. Each foot system is designed specifically to squeeze, knead, roll and swing massage the sole, arch, heel and ankle.

Color Options

Ivory

Taupe

Chocolate Brown

Black

Lumbar Heat

Because the majority of your stress is trapped in the muscles of your back, the powerful heating function is designed to soothe and prepare your muscles for the massage. The heating modules gently warm up to gradually reduce pain and tightness, as well as restore healthy circulation and the rigidity of your muscles.

Deep Pressure Massage Along the Spine

Industry-leading 31" super-long massage stroke

Vast bundles of nerves along the spine retain tension and cause stiffness and fatigue. Sink into deep relaxation with long, pressurized massage strokes from the cervical spine all the way through the lumbar region in long, continuous strokes. In just 20 minutes a day, you'll experience a new sense of well being.

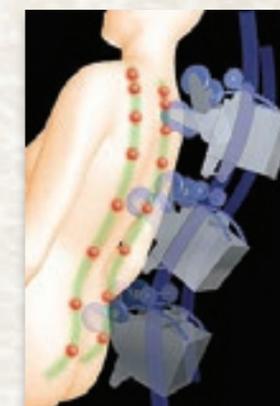

Shiatsu Swivel Seat

The IT-8500 delivers the state of the art Shiatsu Swivel Seat. The undulating Shiatsu Swivel Seat assists spinal correction and alignment while relieving stress and loosening lumbar muscular tension. Complimented with an advanced airbag system for thigh, glute, and hip massage, the Shiatsu Swivel Seat is utilized in the advanced Stretch Feature for spinal decompression.

Intersound Technology

The IT-8500 offers Intersound Technology to soothe and satiate your senses as you customize your massage by surrounding yourself with sound. Upload your favorite music using a USB flash drive and have the rollers massage you to the beat of your music! This combination of soothing massage therapy and audio ambiance provides a truly one of a kind therapeutic experience.

Conforming to Your Body's Natural Shape

Your spine's natural "S" curve bears the brunt of everyday stress and tension that can lead to pain, numbness and an increased heart rate. The massage rollers follow a unique slide rail to conform to the natural shape of your spine to soothe stress, alleviate tension and provide long-lasting comfort.
